HORSE BEDDING

SERVICE COMMITMENT

You can expect excellence from Denbow:

- we deliver on the scheduled day, with a reminder call the day before
- we value our clients comments
- we take bio-security seriously and do not haul poultry litter in our trucks
- our team strives for a safe work environment
- our main phone line is answered live 24-hours a day
- a fantastic team of professional, courteous people here to serve you!

We love what we do and the people we serve.

Denbow has been delivering quality animal bedding to Fraser Valley farmers and producers for over twenty-five years. We supply a variety of sawdust types to meet our customers unique needs.

- Cypress Sawdust is preferred sawdust/shavings for horse bedding. It is produced locally at our coastal sawmills; it is green sawdust, not kiln dried - reducing dust. Cypress is yellow in colour and has a very nice smell.
- Alternately, Spruce Pine Fir (SPF) is another option. It is a drier sawdust from the interior; is white in colour and a different cut. It is more costly due to the trucking required from interior BC sawmills.

We also supply wood chips, ground cover and hog fuel for a variety of applications.

Delivery is available in various quantities and in bulk push-out delivery or blown directly into barns, paddocks and other areas.
