

DENBOW

innovating naturally

We transport and install a variety of high quality rooftop garden and greenroof soils/ growing media using our Express Blower Trucks. Blower truck technology provides a safe, efficient and cost effective solution to providing soil materials where they are required. Denbow has experience blowing rooftop garden soils as high as 12 floors! Our experienced team of operators install materials efficiently and professionally.

GREENROOF SOIL INSTALLATION

Greenroofs provide solutions to several urban environmental problems, including:

- ✓ storm-water management
- ✓ reduction of building heat absorption
- ✓ reduction of pollution
- ✓ improved air quality
- ✓ decreased noise pollution
- ✓ creation of urban wildlife habitat
- ✓ creation of greenspace
